Molecular Basis of Autoimmune Diseases

Message from the Guest Editor

Autoimmune diseases affect approx. 8% of the world's population and counting. Thus, they constitute a major health concern. The treatment of autoimmune diseases still largely relies on unspecific systemic immunosuppression, which is associated with severe side-effects, including a high susceptibility to infections to which many patients finally succumb. Understanding the pathogenesis of autoimmune diseases at the molecular level is presumably key to develop more specific therapeutic strategies to avoid general, systemic immunosuppression and to define therapeutic strategies tailored to specific subgroups of patients. Both will be instrumental in improving the situation of patients with autoimmune diseases.

About the Journal

Message from the Editorial Board

Biomolecules is a multidisciplinary open-access journal that reports on all aspects of research related to biogenic substances, from small molecules to complex polymers. We invite manuscripts of high scientific quality that pertain to the diverse aspects relevant to organic molecules, irrespective of the biological question or methodology. We aim for a competent, fair peer review and rapid publication. Please look at some of the exciting work that has been published in *Biomolecules* so far. We would be delighted to welcome you as one of our authors.

Editors-in-Chief

Prof. Dr. Peter E. Nielsen

Department of Cellular and Molecular Medicine, Faculty of Health and Medical Sciences, University of Copenhagen, Blegdamsvej 3C, DK-2200 Copenhagen, Denmark

Prof. Dr. Lukasz Kurgan

Department of Computer Science, Virginia Commonwealth University, Richmond, VA 23284, USA

Author Benefits

Open Access

— free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Biochemistry)
