

## Special Issue

# Wnt Pathway Regulation in Development, Stem Cells and Cancer

### Message from the Guest Editor

We invite articles for this Special Issue, entitled, “Wnt Pathway regulation in Development, Stem Cells and Cancer”. The goal of this Special Issue is to explore the weird and wonderful of the Wnt signalling pathway across metazoans and what this tells us about Wnt pathway-driven cancers.

Through a deep understanding of Wnt pathway control, activity and function, we can obtain an appreciation of who, how and what goes wrong in the face of oncogenic mutations that drive carcinogenesis. Ultimately, this knowledge will provide the foundation for design of therapeutic strategies that target malignancy of Wnt pathway-driven cancers.

This Special Issue will encompass a series of review or research articles that explore Wnt pathway regulation and function in metazoans and highlight parallels with the oncogenic form of the pathway.

We look forward to your receiving your contributions.

---

### Guest Editor

Dr. Marc De La Roche

Department of Biochemistry, University of Cambridge, 80 Tennis Court Road, Cambridge CB2 1GA, UK

## About the Journal

### Message from the Editorial Board

*Biomolecules* is a multidisciplinary open-access journal that reports on all aspects of research related to biogenic substances, from small molecules to complex polymers. We invite manuscripts of high scientific quality that pertain to the diverse aspects relevant to organic molecules, irrespective of the biological question or methodology. We aim for a competent, fair peer review and rapid publication. Please look at some of the exciting work that has been published in *Biomolecules* so far. We would be delighted to welcome you as one of our authors.

### Author Benefits

#### Open Access

– free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Biochemistry)
