

## Special Issue

# Applications of Machine Learning in Genetics and Genomics

### Message from the Guest Editor

We are seeking contributions to a Special Issue of *Biomolecules* on Machine Learning in Genetics and Genomics. We encourage the submission of both algorithmic advances in machine learning relating to genome analytics, as well as insights and knowledge about genetics and genomics derived using machine learning methods. However, we discourage the application of off-the-shelf machine learning solutions to small or widely available datasets.

### Guest Editor

Dr. Denis Bauer

## About the Journal

### Message from the Editorial Board

*Biomolecules* is a multidisciplinary open-access journal that reports on all aspects of research related to biogenic substances, from small molecules to complex polymers. We invite manuscripts of high scientific quality that pertain to the diverse aspects relevant to organic molecules, irrespective of the biological question or methodology. We aim for a competent, fair peer review and rapid publication. Please look at some of the exciting work that has been published in *Biomolecules* so far. We would be delighted to welcome you as one of our authors.

### Author Benefits

#### Open Access

— free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Biochemistry)
