

## Special Issue

# Biomolecules from Natural Products: Anti-inflammatory and Anti-allergic Activities: 2nd Edition

### Message from the Guest Editor

Many natural products have been discovered in the past and used in many medical applications. Most of them are derived from animals, plants, microorganisms, minerals, or marine life. They play an extremely important role in the treatment of serious diseases. Today, there is an urgent need for high-quality drugs for the treatment of emerging diseases and aging-related diseases. However, most of these diseases are closely related to excessive inflammation and allergies in the human body. Many natural substances exhibit excellent anti-inflammatory and anti-allergic effects. Therefore, we hope that we can show these natural products with new structures or effects in this Special Issue. In the future, they can be used for diseases that are still intractable and difficult to treat and provide new treatment methods and opportunities. We believe that these natural products will be of great help for the development of new drugs in the future.

### Guest Editor

Prof. Dr. Chi-Feng Hung

School of Medicine, Fu Jen Catholic University, New Taipei City, Taiwan

### Deadline for manuscript submissions

closed (31 December 2024)

## About the Journal

### Message from the Editorial Board

*Biomolecules* is a multidisciplinary open-access journal that reports on all aspects of research related to biogenic substances, from small molecules to complex polymers. We invite manuscripts of high scientific quality that pertain to the diverse aspects relevant to organic molecules, irrespective of the biological question or methodology. We aim for a competent, fair peer review and rapid publication. Please look at some of the exciting work that has been published in *Biomolecules* so far. We would be delighted to welcome you as one of our authors.

---

### Editors-in-Chief

Prof. Dr. Peter E. Nielsen

Department of Cellular and Molecular Medicine, Faculty of Health and Medical Sciences, University of Copenhagen, Blegdamsvej 3C, DK-2200 Copenhagen, Denmark

Prof. Dr. Lukasz Kurgan

Department of Computer Science, Virginia Commonwealth University, Richmond, VA 23284, USA

---

### Author Benefits

#### Open Access

— free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Biochemistry)
