Advances in Melanoma Targeted Therapy

Message from the Guest Editor

Despite the advances in melanoma therapy in recent years, there is still a pressing need for novel approaches and targets. The current treatments for melanoma have many limitations, including low response rates, a lack of targeted therapies for “triple-wide type” and NRAS mutant melanoma, and drug resistance, all of which necessitate the discovery of new agents and targets for melanoma. In this Special Issue, we aim to publish the most recent developments in targeted therapies for melanoma. We would like to invite you to contribute research and review manuscripts that report on novel molecules (small and large) that are active against melanoma and novel targets.

Guest Editor

Dr. Dmitriy Minond

About the Journal

Message from the Editorial Board

Biomolecules is a multidisciplinary open-access journal that reports on all aspects of research related to biogenic substances, from small molecules to complex polymers. We invite manuscripts of high scientific quality that pertain to the diverse aspects relevant to organic molecules, irrespective of the biological question or methodology. We aim for a competent, fair peer review and rapid publication. Please look at some of the exciting work that has been published in *Biomolecules* so far. We would be delighted to welcome you as one of our authors.

Editors-in-Chief

Prof. Dr. Peter E. Nielsen

Department of Cellular and Molecular Medicine, Faculty of Health and Medical Sciences, University of Copenhagen, Blegdamsvej 3C, DK-2200 Copenhagen, Denmark

Prof. Dr. Lukasz Kurgan

Department of Computer Science, Virginia Commonwealth University, Richmond, VA 23284, USA

Author Benefits

Open Access

— free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Biochemistry)
