

## Special Issue

# More than Just Adhesion: Recognition Molecules, a Theme Issue Honoring Professor Melitta Schachner

### Message from the Guest Editor

I am pleased to invite you to participate in this Special Issue honoring the contribution of Professor Melitta Schachner to the field of cell adhesion molecules in nervous system development and disease. Prof. Schachner is a world-renowned pioneer in molecular and cellular neurobiology. Prof. Schachner discovered several seminal adhesion molecules which are important in the development of the nervous system, such as L1, CHL1, and tenascins. She was among the first to recognize the importance of the functions of carbohydrates in cell recognition, being able to fine-tune cell interactions in the nervous system.

This Special Issue aims to explore the roles of recognition molecules in signal transduction in the development and regeneration of the nervous system. I look forward to receiving your contributions.

---

### Guest Editor

Dr. Igor Jakovcevski

Institut für Anatomie und Klinische Morphologie, Universität  
Witten/Herdecke, 58448 Witten, Germany

## About the Journal

### Message from the Editorial Board

*Biomolecules* is a multidisciplinary open-access journal that reports on all aspects of research related to biogenic substances, from small molecules to complex polymers. We invite manuscripts of high scientific quality that pertain to the diverse aspects relevant to organic molecules, irrespective of the biological question or methodology. We aim for a competent, fair peer review and rapid publication. Please look at some of the exciting work that has been published in *Biomolecules* so far. We would be delighted to welcome you as one of our authors.

---

### Editors-in-Chief

Prof. Dr. Peter E. Nielsen

Department of Cellular and Molecular Medicine, Faculty of Health and Medical Sciences, University of Copenhagen, Blegdamsvej 3C, DK-2200 Copenhagen, Denmark

Prof. Dr. Lukasz Kurgan

Department of Computer Science, Virginia Commonwealth University, Richmond, VA 23284, USA

---

### Author Benefits

#### Open Access

— free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Biochemistry)
