Advances in Membrane Proteins

Message from the Guest Editor

In this Special Issue of *Biomolecules*, we invite your contributions, either in the form of original research articles, reviews, or “perspective” articles on all aspects related to the overarching theme of “Advances in biophysical and computational approaches to studying the native behaviors of membrane proteins and biological membrane components.” Articles with novel applications of spectroscopic or microscopic techniques are especially welcome.

About the Journal

Message from the Editorial Board

Biomolecules is a multidisciplinary open-access journal that reports on all aspects of research related to biogenic substances, from small molecules to complex polymers. We invite manuscripts of high scientific quality that pertain to the diverse aspects relevant to organic molecules, irrespective of the biological question or methodology. We aim for a competent, fair peer review and rapid publication. Please look at some of the exciting work that has been published in *Biomolecules* so far. We would be delighted to welcome you as one of our authors.
