

## Special Issue

# Aquaporins in the CNS—in Honor of the 30th Anniversary of the Discovery of Aquaporins

### Message from the Guest Editor

The aim of this Special Issue is to shed light on some of the central questions regarding the physiological and pathological roles of aquaporins in the CNS. We specifically welcome original articles and reviews discussing signaling pathways regulating expression, function, and pathophysiological relevance of the CNS aquaporins. I look forward to receiving your contributions.

## About the Journal

### Message from the Editorial Board

*Biomolecules* is a multidisciplinary open-access journal that reports on all aspects of research related to biogenic substances, from small molecules to complex polymers. We invite manuscripts of high scientific quality that pertain to the diverse aspects relevant to organic molecules, irrespective of the biological question or methodology. We aim for a competent, fair peer review and rapid publication. Please look at some of the exciting work that has been published in *Biomolecules* so far. We would be delighted to welcome you as one of our authors.
