Special Issue

New Insights into Kidney Disease Development and Therapy Strategies

Message from the Guest Editors

Basic science and practical issues related to etiological factors, methodology of analysis, diagnostic criteria, and therapeutic advances of neoplastic and non-neoplastic renal diseases are welcomed in this Special Issue, from renal epithelial/non-epithelial tumors to hereditary diseases, transplantation-related disorders, and glomerulonephritis. The Issue intends to bring together the experience of very different fields and serve as a unified forum for basic researchers, urologists, nephrologists, oncologists, pathologists, radiologists, and other related specialties. You may choose our Joint Special Issue in *Cancers*.

About the Journal

Message from the Editorial Board

Biomolecules is a multidisciplinary open-access journal that reports on all aspects of research related to biogenic substances, from small molecules to complex polymers. We invite manuscripts of high scientific quality that pertain to the diverse aspects relevant to organic molecules, irrespective of the biological question or methodology. We aim for a competent, fair peer review and rapid publication. Please look at some of the exciting work that has been published in Biomolecules so far. We would be delighted to welcome you as one of our authors.
