State-of-the-Art Biochemistry and Molecular Biology in USA 2021-2022

Message from the Guest Editors

The aim of this Special Issue is to provide a comprehensive view of state-of-the-art biochemistry and molecular biology in USA. We invite research papers that will consolidate our understanding in this area. Potential topics include but are not limited to the following: molecular biology; structural biology; biochemistry; nanotechnology in biology; Neuroscience/Neurobiology.

About the Journal

Message from the Editorial Board

Biomolecules is a multidisciplinary open-access journal that reports on all aspects of research related to biogenic substances, from small molecules to complex polymers. We invite manuscripts of high scientific quality that pertain to the diverse aspects relevant to organic molecules, irrespective of the biological question or methodology. We aim for a competent, fair peer review and rapid publication. Please look at some of the exciting work that has been published in *Biomolecules* so far. We would be delighted to welcome you as one of our authors.
