

## Special Issue

# The Biology of Cell Metastasis

### Message from the Guest Editor

Metastasis of cells is the most life-threatening event in patients with cancer. At the time of diagnosis, at least half of the patients already present clinically detectable metastatic disease, and a high number of patients will have developed micrometastases that are difficult to detect. Cell metastasis proceeds through a number of sequential events that enable the tumour cell to successfully metastasize: this process contributes to the complexity of cancer as a multiplex disease. This Special Issue will focus on the mechanisms behind cellular metastatic, how the microenvironment and external factors affect cell metastasis, and new targets for therapy and diagnosis.

## About the Journal

### Message from the Editorial Board

*Biomolecules* is a multidisciplinary open-access journal that reports on all aspects of research related to biogenic substances, from small molecules to complex polymers. We invite manuscripts of high scientific quality that pertain to the diverse aspects relevant to organic molecules, irrespective of the biological question or methodology. We aim for a competent, fair peer review and rapid publication. Please look at some of the exciting work that has been published in *Biomolecules* so far. We would be delighted to welcome you as one of our authors.

### Editors-in-Chief

Prof. Dr. Peter E. Nielsen

Department of Cellular and Molecular Medicine, Faculty of Health and Medical Sciences, University of Copenhagen, Blegdamsvej 3C, DK-2200 Copenhagen, Denmark

Prof. Dr. Lukasz Kurgan

Department of Computer Science, Virginia Commonwealth University, Richmond, VA 23284, USA

### Author Benefits

#### Open Access

— free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Biochemistry)
