Endometriosis: Molecular Pathogenesis and Translational Implications

Message from the Guest Editor

We would like to invite you to contribute to this Special Issue of *Biomolecules*, which will feature recent advances in understanding the pathogenesis, detection, diagnosis, and treatment of endometriosis. Original research articles and reviews on the topic of endometriosis or adenomyosis are welcome for submission. We anticipate that this Special Issue will exhibit a compendium of works on this exciting research subject and will interest many readers, including scientists, gynecologists, and epidemiologists.

About the Journal

Message from the Editorial Board

Biomolecules is a multidisciplinary open-access journal that reports on all aspects of research related to biogenic substances, from small molecules to complex polymers. We invite manuscripts of high scientific quality that pertain to the diverse aspects relevant to organic molecules, irrespective of the biological question or methodology. We aim for a competent, fair peer review and rapid publication. Please look at some of the exciting work that has been published in *Biomolecules* so far. We would be delighted to welcome you as one of our authors.
