

## Special Issue

# HMG Proteins from Molecules to Disease

### Message from the Guest Editor

High Mobility Group (HMG) proteins, classified in three families - HMGA, HMGB, and HMGN- are well known by their involvement in DNA repair, as well as transcriptional and epigenetic control of gene expression. HMG proteins are involved in aging, disease, and resistance to drugs. For instance HMGB proteins have been related to the onset of heart stroke, neurodegenerative diseases, inflammatory responses, sepsis, or cancer. Finally, and in a hot topic in these days of coronavirus pandemic, HMG proteins are able to bind to viral proteins and control virulence. In this issue "HMG Proteins from Molecules to Disease" all the cellular and molecular aspects associating the structure and function of these proteins with diseases affecting human, animal or plants are welcome.

### Guest Editor

Dr. María Esperanza Cerdán

EXPRELA Group, Centro de Investigaciones Científicas Avanzadas (CICA), Departamento de Biología, Facultad de Ciencias, INIBIC-Universidade da Coruña, Campus de A Coruña, 15071 A Coruña, Spain

### Deadline for manuscript submissions

closed (15 August 2021)

## About the Journal

### Message from the Editorial Board

*Biomolecules* is a multidisciplinary open-access journal that reports on all aspects of research related to biogenic substances, from small molecules to complex polymers. We invite manuscripts of high scientific quality that pertain to the diverse aspects relevant to organic molecules, irrespective of the biological question or methodology. We aim for a competent, fair peer review and rapid publication. Please look at some of the exciting work that has been published in *Biomolecules* so far. We would be delighted to welcome you as one of our authors.

### Editors-in-Chief

Prof. Dr. Peter E. Nielsen

Department of Cellular and Molecular Medicine, Faculty of Health and Medical Sciences, University of Copenhagen, Blegdamsvej 3C, DK-2200 Copenhagen, Denmark

Prof. Dr. Lukasz Kurgan

Department of Computer Science, Virginia Commonwealth University, Richmond, VA 23284, USA

---

### Author Benefits

#### Open Access

– free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Biochemistry)
