

Special Issue

Advances in Inflammatory Arthritis and Myositis

Message from the Guest Editors

Treatment of inflammatory arthritis and myositis is an important task of rheumatologists, neurologists and other specialists involved in the treatment of immunological diseases. Until today, treatment of these diseases is not always as fast and efficient as wanted. Thus the need for new anti-inflammatory drugs to treat these diseases is evident, and the development of new agents from bench to clinical use as licensed medication is an ongoing challenge. *Biomolecules* specifically encourages work on small molecules, monomers and polymers. This special issue opens the field for comprehensive reviews, original research papers and high-quality communications, to discuss both specific medications, treatment concepts, and related issues.

Guest Editors

Prof. Dr. Michael Schirmer

About the Journal

Message from the Editorial Board

Biomolecules is a multidisciplinary open-access journal that reports on all aspects of research related to biogenic substances, from small molecules to complex polymers. We invite manuscripts of high scientific quality that pertain to the diverse aspects relevant to organic molecules, irrespective of the biological question or methodology. We aim for a competent, fair peer review and rapid publication. Please look at some of the exciting work that has been published in *Biomolecules* so far. We would be delighted to welcome you as one of our authors.

Editors-in-Chief

Prof. Dr. Peter E. Nielsen

Department of Cellular and Molecular Medicine, Faculty of Health and Medical Sciences, University of Copenhagen, Blegdamsvej 3C, DK-2200 Copenhagen, Denmark

Prof. Dr. Lukasz Kurgan

Department of Computer Science, Virginia Commonwealth University, Richmond, VA 23284, USA

Author Benefits

Open Access

— free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Biochemistry)
