

Special Issue

Defects in the Transport Mechanism of Membrane Proteins and Related Diseases, 2nd Edition

Message from the Guest Editor

Following a very successful first run, we are pleased to announce the launch of the second edition of a Special Issue on 'Defects in the Transport Mechanism of Membrane Proteins and Related Diseases'. The purpose of this Special Issue is to integrate current knowledge regarding physiological functions and the mechanisms of transport of a wide group of membrane transport proteins underlying their involvements in the initiation and progression of many diseases. Research papers and review manuscripts depicting a special focus on membrane transporters are invited for submission. Short communications will also be taken into consideration.

Guest Editor

Dr. Daniela Valeria Miniero

Department of Medicine and Surgery, LUM University Giuseppe Degennaro Torre Rossi, 70010 Casamassima, Italy

Deadline for manuscript submissions

30 November 2025

About the Journal

Message from the Editorial Board

Biomolecules is a multidisciplinary open-access journal that reports on all aspects of research related to biogenic substances, from small molecules to complex polymers. We invite manuscripts of high scientific quality that pertain to the diverse aspects relevant to organic molecules, irrespective of the biological question or methodology. We aim for a competent, fair peer review and rapid publication. Please look at some of the exciting work that has been published in *Biomolecules* so far. We would be delighted to welcome you as one of our authors.

Editors-in-Chief

Prof. Dr. Peter E. Nielsen

Department of Cellular and Molecular Medicine, Faculty of Health and Medical Sciences, University of Copenhagen, Blegdamsvej 3C, DK-2200 Copenhagen, Denmark

Prof. Dr. Lukasz Kurgan

Department of Computer Science, Virginia Commonwealth University, Richmond, VA 23284, USA

Author Benefits

Open Access

— free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Biochemistry)
