

## Special Issue

# Defects in the Transport Mechanism of Membrane Proteins and Related Diseases, 2nd Edition

### Message from the Guest Editor

Following a very successful first run, we are pleased to announce the launch of the second edition of a Special Issue on 'Defects in the Transport Mechanism of Membrane Proteins and Related Diseases'. The purpose of this Special Issue is to integrate current knowledge regarding physiological functions and the mechanisms of transport of a wide group of membrane transport proteins underlying their involvements in the initiation and progression of many diseases. Research papers and review manuscripts depicting a special focus on membrane transporters are invited for submission. Short communications will also be taken into consideration.

## About the Journal

### Message from the Editorial Board

*Biomolecules* is a multidisciplinary open-access journal that reports on all aspects of research related to biogenic substances, from small molecules to complex polymers. We invite manuscripts of high scientific quality that pertain to the diverse aspects relevant to organic molecules, irrespective of the biological question or methodology. We aim for a competent, fair peer review and rapid publication. Please look at some of the exciting work that has been published in *Biomolecules* so far. We would be delighted to welcome you as one of our authors.
