

## Special Issue

# Health and Environmental Effect of Advanced Materials and Fine Particles: 2nd Edition

### Message from the Guest Editor

This Special Issue aims to discuss the health and environmental effects of advanced materials and fine particles and their relationships with various physicochemical properties. We invite authors to submit original research and review articles that seek to improve our understanding of advanced materials and fine particles' environmental and health effects. Particularly, we are interested in articles that explore quantitative relationships among their physicochemical properties, exposure assessment, biological reactivities, and health effects.

## About the Journal

### Message from the Editorial Board

*Biomolecules* is a multidisciplinary open-access journal that reports on all aspects of research related to biogenic substances, from small molecules to complex polymers. We invite manuscripts of high scientific quality that pertain to the diverse aspects relevant to organic molecules, irrespective of the biological question or methodology. We aim for a competent, fair peer review and rapid publication. Please look at some of the exciting work that has been published in *Biomolecules* so far. We would be delighted to welcome you as one of our authors.
