

Special Issue

New Trends in Manipulation of Living Cells Behaviour

Message from the Guest Editor

This Special Issue will provide a timely update on current and potential in vitro models, platforms, improved culturing conditions, including dynamic 3D culture systems, and critically appraise their strengths and limitations. We invite the submission of manuscripts (both original research manuscripts and reviews) that not only cover any aspect of research devoted to manipulation of living cell behavior but also reveal underlying mechanism(s) by which external cues drive cell behavior and functionality. New insights into innovative, more accurate, more reliable, and cost-effective models, platforms, and tools for in vitro control of cell function will enable novel therapeutic approaches (methods). We look forward to reading your contributions.

About the Journal

Message from the Editorial Board

Biomolecules is a multidisciplinary open-access journal that reports on all aspects of research related to biogenic substances, from small molecules to complex polymers. We invite manuscripts of high scientific quality that pertain to the diverse aspects relevant to organic molecules, irrespective of the biological question or methodology. We aim for a competent, fair peer review and rapid publication. Please look at some of the exciting work that has been published in *Biomolecules* so far. We would be delighted to welcome you as one of our authors.

Editors-in-Chief

Prof. Dr. Peter E. Nielsen

Department of Cellular and Molecular Medicine, Faculty of Health and Medical Sciences, University of Copenhagen, Blegdamsvej 3C, DK-2200 Copenhagen, Denmark

Prof. Dr. Lukasz Kurgan

Department of Computer Science, Virginia Commonwealth University, Richmond, VA 23284, USA

Author Benefits

Open Access

– free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Biochemistry)
