

Special Issue

Nucleic Acids, Structure and Modeling

Message from the Guest Editor

The goal of this Special Issue of *Biomolecules* is to promote the field of structural biology of nucleic acids by critically assessing structural data and modeling tools. Especially welcome are studies employing the bioinformatics analysis of existing data concentrating on structural data annotation and validation, details of structurally or functionally interesting systems containing nucleic acids, reports on simulations reliably revealing the conformational variability, dynamics, and energy profiles during structural transitions and interactions of nucleic acids at a local or global level, and integrative approaches improving the structural information by synergy with various experimental and theoretical approaches.

Guest Editor

Dr. Jiří Černý

About the Journal

Message from the Editorial Board

Biomolecules is a multidisciplinary open-access journal that reports on all aspects of research related to biogenic substances, from small molecules to complex polymers. We invite manuscripts of high scientific quality that pertain to the diverse aspects relevant to organic molecules, irrespective of the biological question or methodology. We aim for a competent, fair peer review and rapid publication. Please look at some of the exciting work that has been published in *Biomolecules* so far. We would be delighted to welcome you as one of our authors.

Editors-in-Chief

Prof. Dr. Peter E. Nielsen

Department of Cellular and Molecular Medicine, Faculty of Health and Medical Sciences, University of Copenhagen, Blegdamsvej 3C, DK-2200 Copenhagen, Denmark

Prof. Dr. Lukasz Kurgan

Department of Computer Science, Virginia Commonwealth University, Richmond, VA 23284, USA

Author Benefits

Open Access

— free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Biochemistry)
