

## Special Issue

# Biomolecules in Myocarditis and Inflammatory Heart Disease

### Message from the Guest Editor

The aim of this Special Issue of *Biomolecules* is to explore the genetic and immunological aspects underlying myocarditis, pericarditis, and inflammatory heart disease. These multifactorial diseases have diverse etiologies, including autoimmune mechanisms, drug-induced hypersensitivity reactions, and viral and non-viral infections, among others. Irrespective of the cause, the pathophysiology is characterized by an inflammatory cascade that leads to myocyte injury, adverse ventricular remodeling, interstitial fibrosis, and functional impairment. Unfortunately, a significant subset of patients progress to dilated cardiomyopathy (DCM), chronic heart failure, and high-mortality cardiac-related conditions. Investigations into immunological responses and how genetics may influence inflammatory pathways can provide the basis for new therapeutic options.

### Guest Editor

Dr. Amarylis Claudine Bonito A. Wanschel

Department of Clinical Sciences and Pharmacy, High Point University,  
High Point, NC, USA

### Deadline for manuscript submissions

31 December 2025

## About the Journal

### Message from the Editorial Board

*Biomolecules* is a multidisciplinary open-access journal that reports on all aspects of research related to biogenic substances, from small molecules to complex polymers. We invite manuscripts of high scientific quality that pertain to the diverse aspects relevant to organic molecules, irrespective of the biological question or methodology. We aim for a competent, fair peer review and rapid publication. Please look at some of the exciting work that has been published in *Biomolecules* so far. We would be delighted to welcome you as one of our authors.

---

### Editors-in-Chief

Prof. Dr. Peter E. Nielsen

Department of Cellular and Molecular Medicine, Faculty of Health and Medical Sciences, University of Copenhagen, Blegdamsvej 3C, DK-2200 Copenhagen, Denmark

Prof. Dr. Lukasz Kurgan

Department of Computer Science, Virginia Commonwealth University, Richmond, VA 23284, USA

---

### Author Benefits

#### Open Access

— free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Biochemistry)
