

## Special Issue

# Advanced Therapeutic Strategies via Oral Mesenchymal Stem Cells

### Message from the Guest Editors

Recent advanced technology in oral biology provides several options for therapeutic strategies. Application of stem cells is a powerful tool, and oral and dental mesenchymal stem cells have been studied in order to be utilized for cell therapies for decades. However, there is still a huge gap between ideal use and reality. The only way to activate and further establish this field is to continue studying stem cells combined with biomaterials and the concept of tissue engineering. Further, industry–academia collaboration will strengthen research productivity. In this Special Issue, we expect exciting research and review articles to promote therapeutic strategy using oral mesenchymal stem cells.

## About the Journal

### Message from the Editorial Board

*Biomolecules* is a multidisciplinary open-access journal that reports on all aspects of research related to biogenic substances, from small molecules to complex polymers. We invite manuscripts of high scientific quality that pertain to the diverse aspects relevant to organic molecules, irrespective of the biological question or methodology. We aim for a competent, fair peer review and rapid publication. Please look at some of the exciting work that has been published in *Biomolecules* so far. We would be delighted to welcome you as one of our authors.

### Editors-in-Chief

Prof. Dr. Peter E. Nielsen

Department of Cellular and Molecular Medicine, Faculty of Health and Medical Sciences, University of Copenhagen, Blegdamsvej 3C, DK-2200 Copenhagen, Denmark

Prof. Dr. Lukasz Kurgan

Department of Computer Science, Virginia Commonwealth University, Richmond, VA 23284, USA

---

### Author Benefits

#### Open Access

– free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Biochemistry)
