10th Anniversary of Biomolecules—Recent Advances in Peptide and Protein Therapeutics

Message from the Guest Editor

This year marks the 10th anniversary of the open access MDPI journal *Biomolecules*. To celebrate this important occasion, we are delighted and proud to celebrate with a series of Special Issues and events. To mark this important milestone, a Special Issue entitled “**10th Anniversary of *Biomolecules*—Recent Advances in Peptide and Protein Therapeutics**” is being launched. This Special Issue will collect research articles and high-quality review papers in the research fields relating to peptide and protein therapeutics. We kindly encourage research groups working in various areas of Peptide and Protein Therapeutics to make contributions to this Special Issue.

About the Journal

Message from the Editorial Board

Biomolecules is a multidisciplinary open-access journal that reports on all aspects of research related to biogenic substances, from small molecules to complex polymers. We invite manuscripts of high scientific quality that pertain to the diverse aspects relevant to organic molecules, irrespective of the biological question or methodology. We aim for a competent, fair peer review and rapid publication. Please look at some of the exciting work that has been published in *Biomolecules* so far. We would be delighted to welcome you as one of our authors.
