

Special Issue

Genomic Insights into Microbial Infections

Message from the Guest Editor

The topics in this Special Issue will mainly cover genome-wide investigation of various pathogenic microbials, metagenomic investigation of pathogen-involved various microbiota and their hosts, and their temporal and spatial analyses. These topics include, but are not limited to, the following: findings and discovery of newly emerging microbial infections; tracking the source and monitoring the spread of pathogenic agents; identification of key virulence factors affecting the host; understanding the mechanisms of antimicrobial resistance; revealing the interactions between infectious microbials, their microbiota, and their hosts; and the development of novel drugs, therapies, and strategies for effective infection preventions and treatments. We look forward to your submissions.

About the Journal

Message from the Editorial Board

Biomolecules is a multidisciplinary open-access journal that reports on all aspects of research related to biogenic substances, from small molecules to complex polymers. We invite manuscripts of high scientific quality that pertain to the diverse aspects relevant to organic molecules, irrespective of the biological question or methodology. We aim for a competent, fair peer review and rapid publication. Please look at some of the exciting work that has been published in *Biomolecules* so far. We would be delighted to welcome you as one of our authors.

Editors-in-Chief

Prof. Dr. Peter E. Nielsen

Department of Cellular and Molecular Medicine, Faculty of Health and Medical Sciences, University of Copenhagen, Blegdamsvej 3C, DK-2200 Copenhagen, Denmark

Prof. Dr. Lukasz Kurgan

Department of Computer Science, Virginia Commonwealth University, Richmond, VA 23284, USA

Author Benefits

Open Access

— free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Biochemistry)
