

Special Issue

Reelin, a Hub Protein during Nervous System Development? Volume II

Message from the Guest Editor

At the crossroads between cellular properties and physiological functions, this Special Issue aims to gather the latest findings on reelin signaling and function in the normal and pathological development of the central nervous system during both pre- and postnatal life. It will present original studies at the cellular or neural network level that include multiscale approaches (structural, functional, and behavioral) as well as reviews. It will also encourage studies on the molecular mechanisms associated with reelin signaling and the cellular pathways involved in reelin-mediated pathological brain development.

Guest Editor

Dr. Pascale Chavis

Institut de Neurobiologie la Méditerranée, Marseille, France

About the Journal

Message from the Editorial Board

Biomolecules is a multidisciplinary open-access journal that reports on all aspects of research related to biogenic substances, from small molecules to complex polymers. We invite manuscripts of high scientific quality that pertain to the diverse aspects relevant to organic molecules, irrespective of the biological question or methodology. We aim for a competent, fair peer review and rapid publication. Please look at some of the exciting work that has been published in *Biomolecules* so far. We would be delighted to welcome you as one of our authors.

Editors-in-Chief

Prof. Dr. Peter E. Nielsen

Department of Cellular and Molecular Medicine, Faculty of Health and Medical Sciences, University of Copenhagen, Blegdamsvej 3C, DK-2200 Copenhagen, Denmark

Prof. Dr. Lukasz Kurgan

Department of Computer Science, Virginia Commonwealth University, Richmond, VA 23284, USA

Author Benefits

Open Access

— free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Biochemistry)
