

## Special Issue

# State-of-the-Art on Biochemistry and Molecular Biology in Spain 2021

### Message from the Guest Editors

The aim of this Special Issue is to provide a comprehensive view of state-of-the-art biochemistry and molecular biology in Spain. We invite research papers that will consolidate our understanding in this area. Potential topics include but are not limited to the following:

- Biochemical changes through the manufacture of foods;
- Biological activity of food and plant bioactive compounds;
- Formation and biological activity of unhealthy compounds in foods;
- Synthesis and biological activity of new compounds;
- Formation of healthy and unhealthy compounds during food processing;
- Relationship between healthy and unhealthy compounds, and health status.

## About the Journal

### Message from the Editorial Board

*Biomolecules* is a multidisciplinary open-access journal that reports on all aspects of research related to biogenic substances, from small molecules to complex polymers. We invite manuscripts of high scientific quality that pertain to the diverse aspects relevant to organic molecules, irrespective of the biological question or methodology. We aim for a competent, fair peer review and rapid publication. Please look at some of the exciting work that has been published in *Biomolecules* so far. We would be delighted to welcome you as one of our authors.

### Author Benefits

#### Open Access

– free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Biochemistry)
