Symbiotic Systems and Viral Diversity: From Marine Organisms to Human Pathogenesis

Message from the Guest Editor

It is with great pleasure that I invite you to contribute to this Special Issue entitled “Symbiotic Systems and Viral Diversity: From Marine Organisms to Human Pathogenesis”. Advances in sequencing technology have enabled unprecedented insights into the viral communities present in a multitude of organisms, including humans. While viruses can be pathogenic, it has become increasingly apparent that they can also exist in a symbiotic and even beneficial relationship with the host organism. This Special Issue welcomes contributions exploring symbiotic viral–host systems and how these viromes play multifaceted roles in symbiosis with their host organisms. In addition, contributions on the symbiotic relationship between viruses and fungi, protists, and bacteria are also encouraged. Thank you, and we look forward to your contributions.

About the Journal

Message from the Editorial Board

Biomolecules is a multidisciplinary open-access journal that reports on all aspects of research related to biogenic substances, from small molecules to complex polymers. We invite manuscripts of high scientific quality that pertain to the diverse aspects relevant to organic molecules, irrespective of the biological question or methodology. We aim for a competent, fair peer review and rapid publication. Please look at some of the exciting work that has been published in *Biomolecules* so far. We would be delighted to welcome you as one of our authors.

Editors-in-Chief

Prof. Dr. Peter E. Nielsen

Department of Cellular and Molecular Medicine, Faculty of Health and Medical Sciences, University of Copenhagen, Blegdamsvej 3C, DK-2200 Copenhagen, Denmark

Prof. Dr. Lukasz Kurgan

Department of Computer Science, Virginia Commonwealth University, Richmond, VA 23284, USA

Author Benefits

Open Access

— free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Biochemistry)
