

## Special Issue

# New Approaches for the Treatment of Civilization Diseases

### Message from the Guest Editor

Civilization diseases are called the epidemic of the 21st century. They spread globally, are non-contagious, yet lead to disability and result in over 80% of premature deaths. Living in a hurry, full of stressful stimuli, poor nutrition, as well as climate change and using stimulants are the causes that often lead to a shortening of life expectancy or significantly reduce its quality. In this special issue, we invite potential authors to submit manuscripts regarding the discovery of anti-cancer, anti-diabetes, anti-tuberculosis and drugs for mental and neurodegenerative diseases. Publications covering, inter alia, the synthesis, mechanism of action and biological activity of the compounds are welcome. Both original and review article contributions will be welcome.

### Guest Editor

Dr. Monika Pitucha

Independent Radiopharmacy Unit, Department of Organic Chemistry, Faculty of Pharmacy, Medical University of Lublin, PL-20093 Lublin, Poland

### Deadline for manuscript submissions

closed (31 December 2021)

## About the Journal

### Message from the Editorial Board

*Biomolecules* is a multidisciplinary open-access journal that reports on all aspects of research related to biogenic substances, from small molecules to complex polymers. We invite manuscripts of high scientific quality that pertain to the diverse aspects relevant to organic molecules, irrespective of the biological question or methodology. We aim for a competent, fair peer review and rapid publication. Please look at some of the exciting work that has been published in *Biomolecules* so far. We would be delighted to welcome you as one of our authors.

### Author Benefits

#### Open Access

— free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Biochemistry)
