Lung Cancer: From Molecular Basis to Therapy

Message from the Guest Editor

Lung cancer is a leading cause of cancer deaths worldwide. Significant improvements have been made in the last decade, enabling a significant increase in survival. However, lung cancer remains a complex and heterogeneous disease, with a molecular basis that varies from individual to individual, and prognosis and disease control are still poor in many cases.

Understanding the molecular basis is crucial in advancing diagnosis, treatment, and prevention strategies. This Special Issue will explore the molecular pathways behind lung cancer, its main genetic mutations, and the latest advances in therapy options. Our aim in launching this Special Issue is to emphasize that research is crucial in overcoming challenges related to drug resistance, early diagnosis, and personalized treatment.

About the Journal

Message from the Editorial Board

Biomolecules is a multidisciplinary open-access journal that reports on all aspects of research related to biogenic substances, from small molecules to complex polymers. We invite manuscripts of high scientific quality that pertain to the diverse aspects relevant to organic molecules, irrespective of the biological question or methodology. We aim for a competent, fair peer review and rapid publication. Please look at some of the exciting work that has been published in *Biomolecules* so far. We would be delighted to welcome you as one of our authors.

Editors-in-Chief

Prof. Dr. Peter E. Nielsen

Department of Cellular and Molecular Medicine, Faculty of Health and Medical Sciences, University of Copenhagen, Blegdamsvej 3C, DK-2200 Copenhagen, Denmark

Prof. Dr. Lukasz Kurgan

Department of Computer Science, Virginia Commonwealth University, Richmond, VA 23284, USA

Author Benefits

Open Access

— free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Biochemistry)
