

## Special Issue

# Integrative Multi-Omics in Biomedical Research

### Message from the Guest Editors

Postgenomic methods, typically based on mass spectrometry, comprise the analysis of metabolites, lipids, and proteins and are an essential complement to genomics and transcriptomics. Multidimensional omics is becoming established to provide accurate and comprehensive state descriptions and to support the understanding of molecular mechanisms in complex systems. In this Special Issue, we invite you to share laboratory and computational method innovations that enable the concurrent and integrative analysis of multiple omics data sets. We would also like to showcase novel findings as a result of application of multi-omics to address questions in biology and pathology. Both original research and review papers are welcome. We look forward to reading your contributions to this rapidly advancing interdisciplinary field.

### Guest Editors

Prof. Christopher Gerner

Department of Analytical Chemistry, University of Vienna, 1090 Vienna, Austria

Dr. Michelle Hill

Faculty of Medicine, The University of Queensland, Herston, Brisbane, QLD 4102, Australia

### Deadline for manuscript submissions

closed (15 May 2021)

## About the Journal

### Message from the Editorial Board

*Biomolecules* is a multidisciplinary open-access journal that reports on all aspects of research related to biogenic substances, from small molecules to complex polymers. We invite manuscripts of high scientific quality that pertain to the diverse aspects relevant to organic molecules, irrespective of the biological question or methodology. We aim for a competent, fair peer review and rapid publication. Please look at some of the exciting work that has been published in *Biomolecules* so far. We would be delighted to welcome you as one of our authors.

---

### Editors-in-Chief

Prof. Dr. Peter E. Nielsen

Department of Cellular and Molecular Medicine, Faculty of Health and Medical Sciences, University of Copenhagen, Blegdamsvej 3C, DK-2200 Copenhagen, Denmark

Prof. Dr. Lukasz Kurgan

Department of Computer Science, Virginia Commonwealth University, Richmond, VA 23284, USA

---

### Author Benefits

#### Open Access

— free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Biochemistry)
