

## Topical Collection

# Feature Papers in Synthetic Biology and Bioengineering

### Message from the Collection Editors

This Topical Collection, "Feature Papers in Synthetic Biology and Bioengineering" aims to represent an attractive open-access publishing platform for synthetic biology and bioengineering research, bringing together high-quality research articles, review articles, and communications on all aspects of synthetic biology and bioengineering. The Topical Collection will be dedicated to the recent advances in this challenging and exciting field of research. It will comprise a selection of exclusive papers from the Editorial Board Members (EBMs) of the Synthetic Biology and Bioengineering Section as well as invited papers from relevant experts. Please note that all invited papers will be published online once accepted.

## About the Journal

### Message from the Editorial Board

*Biomolecules* is a multidisciplinary open-access journal that reports on all aspects of research related to biogenic substances, from small molecules to complex polymers. We invite manuscripts of high scientific quality that pertain to the diverse aspects relevant to organic molecules, irrespective of the biological question or methodology. We aim for a competent, fair peer review and rapid publication. Please look at some of the exciting work that has been published in *Biomolecules* so far. We would be delighted to welcome you as one of our authors.
