

Topical Collection

Feature Papers in Synthetic Biology and Bioengineering

Message from the Collection Editors

This Topical Collection, “Feature Papers in Synthetic Biology and Bioengineering” aims to represent an attractive open-access publishing platform for synthetic biology and bioengineering research, bringing together high-quality research articles, review articles, and communications on all aspects of synthetic biology and bioengineering. The Topical Collection will be dedicated to the recent advances in this challenging and exciting field of research. It will comprise a selection of exclusive papers from the Editorial Board Members (EBMs) of the Synthetic Biology and Bioengineering Section as well as invited papers from relevant experts. Please note that all invited papers will be published online once accepted.
