

biosensors

Dear Colleagues,

We are pleased to announce that the winner of the *Biosensors* 2023 Young Investigator Award is Dr. Paolo Bollella.

2023 YOUNG INVESTIGATOR AWARD

WINNER

Dr. Paolo Bollella is a tenure-track assistant professor at the Department of Chemistry, University of Bari Aldo Moro, Bari, Italy. Dr. Bollella's research interests are in the field of wearable biosensors, conductive inks, edible biosensors, printing electrodes, electrode modification, and enzyme-based ultra-sensitive amperometric biosensors. Dr. Bollella received his PhD in 2017 and has an outstanding publication record, having garnered a substantial number of citations (Hirsch index 28, Scopus) with broad applications in bio-electrochemical sciences. He has been included among the top 100,000 (top 2%) most influential scientists and engineers for the years 2019, 2020, 2021, and 2022 (according to statistics provided by Stanford University). He is clearly a rising star in the field of biosensors. Please join us in congratulating Dr. Bollella for his outstanding achievements.

As an awardee, Dr. Bollella will receive an honorarium of CHF 2000, the opportunity to publish a paper free of charge before 31 December 2024 in *Biosensors* following peer review, and an electronic certificate.

We would like to thank all nominees from various fields of study for their participation and all Award Committee Members for their evaluation of the many excellent nominations.

Prof. Dr. Giovanna Marrazza
Editor-in-Chief, *Biosensors*
