Message from the Guest Editors

This Special Issue, titled “**Biosensing for Environmental Monitoring**”, of the international SCI Journal (2021 IF = 5.743) *Biosensors*, will mainly cover original research which relates to the abovementioned topic, including microbial electrochemistry, environmental survey, environmental monitoring, and molecular techniques. The Special Issue aims to focus on the recent development of biosensing strategies applied to environmental survey and environmental monitoring research. Furthermore, the Special Issue will provide an overview of recent achievements and stimulate ideas about current and future research in the biosensors field.

Both original papers and review articles are welcome. I look forward to receiving your outstanding research outcomes.

Message from the Editor-in-Chief

Biosensors is a leading journal, devoted to fast publication of the latest achievements, technological developments and scientific research in the exciting multidisciplinary area of biosensors. Both experimental and theoretical papers are published, including all aspects of biosensor design, technology, proof of concept and application. Special issues are devoted to specific technologies and applications, and a selection of the most outstanding papers each year is recognized. Pushing the boundaries of the discipline, we invite original papers, as well as timely reviews on cutting edge fields within the subject area.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, CAPus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q1 (*Chemistry, Analytical*) / CiteScore - Q1 (*Engineering (miscellaneous)*)
