Deadline for manuscript
submissions:

closed (31 August 2020)

Message from the Guest Editor

I am pleased to announce a new Special Issue in *Biosensors* called “Design and Evaluation of Sensors in Type 1 Diabetes”. In this Special Issue, we invite researchers to contribute manuscripts that describe the next generation of sensor design and also the challenges presented to current sensors in the field of type 1 diabetes.

- Glucose sensor
- Type 1 diabetes
- Continuous glucose monitor
- Insulin
- Physical activity
- Sleep
- Glucagon
- Noninvasive sensor

an Open Access Journal by MDPI

Prof. Dr. Giovanna Marrazza

Department of Chemistry "Ugo Schiff", University of Florence, via della Lastruccia 3, 50019 Sesto Fiorentino, (Fi), Italy

Message from the Editor-in-Chief

Biosensors is a leading journal, devoted to fast publication of the latest achievements, technological developments and scientific research in the exciting multidisciplinary area of biosensors. Both experimental and theoretical papers are published, including all aspects of biosensor design, technology, proof of concept and application. Special issues are devoted to specific technologies and applications, and a selection of the most outstanding papers each year is recognized. Pushing the boundaries of the discipline, we invite original papers, as well as timely reviews on cutting edge fields within the subject area.

Author Benefits

Open Access:— free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, CAPLus / SciFinder, Inspec, and many other databases.

Journal Rank: JCR - Q2 (*Chemistry, Analytical*) / CiteScore - Q2 (*Clinical Biochemistry*)
