

Special Issue

Biosensors: 10th Anniversary Feature Papers

Message from the Guest Editors

The *Biosensors* journal was funded in 2010. During these 10 years, *Biosensors* has published more than 50 special issues and 550 papers and welcomed breakthrough and innovative papers in biosensors developed for applications in food, health, security and defence, and environmental fields. The *Biosensors* journal also covers all aspects of sensors incorporating biorecognition elements, such as (but not limited to) enzymes, antibodies, nucleic acids, whole cells, tissues and organelles, and other biological or biologically inspired components. All the transducer principles are also covered in this journal. The year 2020 marks its 10th anniversary and its acceptance for coverage in the Science Citation Expanded (SCIE) in Web of Science. We are thus excited to celebrate the *Biosensors* journal's 10th anniversary with a Special issue. This Special Issue welcomes both research and review papers in the most recent and innovative developments of biosensors for applications in the food, health, security, and defence and environmental fields.

About the Journal

Message from the Editor-in-Chief

Biosensors is a leading journal, devoted to fast publication of the latest achievements, technological developments and scientific research in the exciting multidisciplinary area of biosensors. Both experimental and theoretical papers are published, including all aspects of biosensor design, technology, proof of concept and application. Special issues are devoted to specific technologies and applications, and a selection of the most outstanding papers each year is recognized. Pushing the boundaries of the discipline, we invite original papers, as well as timely reviews on cutting edge fields within the subject area.

Editor-in-Chief

Prof. Dr. Giovanna Marrazza

Department of Chemistry "Ugo Schiff", University of Florence, Via della
Lastruccia 3, 50019 Sesto Fiorentino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q1 (Instruments and Instrumentation) / CiteScore -
Q1 (Instrumentation)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.8 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2025).
