

Special Issue

Feature Issue of Optical and Photonic Biosensors Section

Message from the Guest Editors

In recent years, the enabling role of photonics in the field of biosensing is rapidly strengthening. Photonic biosensors, which are mainly intended for health applications, environmental monitoring, and food/water quality control, have reached the appropriate maturity for their entry into the market and research effort in this field is rapidly increasing. The Special Issue will provide a forum for the last research activities in photonic biosensors. Theoretical and experimental papers are solicited in, though not limited to, the following areas: micro-photonic chip-based biosensors, fiber-optic biosensors, lab-on-fiber devices, photonic biosensors based on metasurfaces and photonic crystals, optofluidic biosensors plasmonic biosensors based on surface plasmon resonance, localized surface plasmon resonance, and surface-enhanced Raman scattering, emerging application of Photonics in the field of biosensing, new materials and physical concepts intended for photonic biosensors

Guest Editors

Prof. Dr. Francesco Dell'Olio

Department of Electrical and Information Engineering, Polytechnic University of Bari, 70126 Bari, Italy

Dr. Maria Carmen Estévez Alberola

Nanobiosensors and Bioanalytical Applications Group, Catalan Institute of Nanoscience and Nanotechnology (ICN2), CSIC, CIBER-BBN and BIST, Campus UAB Bellaterra, 08193 Barcelona, Spain

Deadline for manuscript submissions

closed (20 December 2022)

About the Journal

Message from the Editor-in-Chief

Biosensors is a leading journal, devoted to fast publication of the latest achievements, technological developments and scientific research in the exciting multidisciplinary area of biosensors. Both experimental and theoretical papers are published, including all aspects of biosensor design, technology, proof of concept and application. Special issues are devoted to specific technologies and applications, and a selection of the most outstanding papers each year is recognized. Pushing the boundaries of the discipline, we invite original papers, as well as timely reviews on cutting edge fields within the subject area.

Editor-in-Chief

Prof. Dr. Giovanna Marrazza

Department of Chemistry "Ugo Schiff", University of Florence, Via della
Laustruccia 3, 50019 Sesto Fiorentino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Embase, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q1 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 20.6 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the second half of 2025).
