

Special Issue

Advanced Biosensors for Disease Screening, Monitoring, Diagnosis, and Treatment—2nd Edition

Message from the Guest Editor

Whether it be a pacemaker or a blood glucose monitor, biosensors have contributed significantly to healthcare and continue to do so. Some patients have been able to live longer and healthier lives as a direct result of a biosensor. Besides a steady increase in their use in developing countries, biosensors are reaching an increasing number of individuals in developed countries due to their cost, size, advancements, and accessibility. These now range from simple screening for diseases and patient monitoring to actual diagnoses and the direct treatment of ailments. This Special Issue will showcase advances in biosensors in the overarching field of healthcare.

About the Journal

Message from the Editor-in-Chief

Biosensors is a leading journal, devoted to fast publication of the latest achievements, technological developments and scientific research in the exciting multidisciplinary area of biosensors. Both experimental and theoretical papers are published, including all aspects of biosensor design, technology, proof of concept and application. Special issues are devoted to specific technologies and applications, and a selection of the most outstanding papers each year is recognized. Pushing the boundaries of the discipline, we invite original papers, as well as timely reviews on cutting edge fields within the subject area.

Editor-in-Chief

Prof. Dr. Giovanna Marrazza

Department of Chemistry "Ugo Schiff", University of Florence, Via della
Lastruccia 3, 50019 Sesto Fiorentino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q1 (Instruments and Instrumentation) / CiteScore -
Q1 (Instrumentation)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.8 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2025).
