Innovative Technology Application for Medical Implants

Message from the Guest Editor

Clinical treatment on dental, orthopedic, cardiovascular, plastic surgery, internal medicine using medical implants is safe and effective. Determining how to further apply innovative technologies on medical implant design, simulation, and manufacturing to bring future medical value input in diagnosis and clinical treatment more in line with precision treatment and smart medicine, on the other hand, is the trend of the times. This Special Issue is devoted to the most recent innovative techniques applied in the area of medical implant development, including novel design, function, diagnostics, treatment, and instrumentation systems, in particular for future clinical applications.

Guest Editor

Prof. Dr. Chunli Lin

Department of Biomedical Engineering, National Yang Ming Chiao Tung University, Taipei 112, Taiwan

About the Journal

Message from the Editor-in-Chief

Biosensors is a leading journal, devoted to fast publication of the latest achievements, technological developments and scientific research in the exciting multidisciplinary area of biosensors. Both experimental and theoretical papers are published, including all aspects of biosensor design, technology, proof of concept and application. Special issues are devoted to specific technologies and applications, and a selection of the most outstanding papers each year is recognized. Pushing the boundaries of the discipline, we invite original papers, as well as timely reviews on cutting edge fields within the subject area.

Editor-in-Chief

Prof. Dr. Giovanna Marrazza

Department of Chemistry "Ugo Schiff", University of Florence, Via della
Laustruccia 3, 50019 Sesto Fiorentino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Embase, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q1 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 20.6 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the second half of 2025).
