

Special Issue

Advances in Nanomaterials for Biosensing and Drug Delivery

Message from the Guest Editors

Recently developed nanomaterials exhibit attractive physicochemical properties, possess versatile and tunable functionality, and have proven to be suitable and performance-enhanced candidates as bioactive nanocoatings for improved implantable and exploratory devices, nanoplatforms for specific and selective detection and imaging, nanostructures for tissue restoration and regeneration, and as nanosystems for controlled, targeted, and circumstantially triggered drug delivery. We would like to invite you to contribute to this Special Issue with a research article on Advances in Nanomaterials for Biosensing and Drug Delivery. Furthermore, in this Special Issue, we would like to include advances in the drug delivery area.

About the Journal

Message from the Editor-in-Chief

Biosensors is a leading journal, devoted to fast publication of the latest achievements, technological developments and scientific research in the exciting multidisciplinary area of biosensors. Both experimental and theoretical papers are published, including all aspects of biosensor design, technology, proof of concept and application. Special issues are devoted to specific technologies and applications, and a selection of the most outstanding papers each year is recognized. Pushing the boundaries of the discipline, we invite original papers, as well as timely reviews on cutting edge fields within the subject area.

Editor-in-Chief

Prof. Dr. Giovanna Marrazza

Department of Chemistry "Ugo Schiff", University of Florence, Via della
Lastruccia 3, 50019 Sesto Fiorentino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Embase, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q1 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.3 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2026).
