

## Special Issue

# Progress on the Production, Purification and Applications of Microbial Enzymes

### Message from the Guest Editors

Microbial enzymes are recognized worldwide for their widespread applications in medicine, food, agriculture, and chemical fields, among others. Additionally, industrial processes mediated by enzymes are of high interest due to their nontoxic and eco-friendly properties, reduced process time and cost-effectiveness. At present, advances in genetic and protein engineering have improved the production of microbial enzymes to meet the increased demand, designing and producing enzymes with desired properties and functionalities. In addition, novel purification techniques with improved resolution, simplicity and speed, which are easy to scale-up and able to operate in continuous mode, have been developed to purify microbial enzymes from the complex media. This Special Issue aims to cover promising, recent, and novel research trends in the production, purification and applications of microbial enzymes.

### Guest Editors

Dr. Ana Paula Tavares

Department of Chemistry, CICECO–Aveiro Institute of Materials,  
University of Aveiro, 3810-193 Aveiro, Portugal

Dr. Mafalda R. Almeida

CICECO – Aveiro Institute of Materials, Department of Chemistry,  
University of Aveiro, 3810-193 Aveiro, Portugal

### Deadline for manuscript submissions

closed (30 September 2024)

## About the Journal

### Message from the Editor-in-Chief

---

#### Editor-in-Chief

Prof. Dr. Massimo Negrini  
Department of Morphology, Surgery and Experimental Medicine,  
University of Ferrara, Ferrara, Italy

---

#### Author Benefits

##### High Visibility:

indexed within ESCI (Web of Science), Scopus, PubMed, PMC, Inspec, CAPlus / SciFinder, and other databases.

##### Journal Rank:

JCR - Q2 (Biotechnology and Applied Microbiology)

##### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 22.3 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2025).
