### Message from the Guest Editor

Dear Colleagues,

The field of Deep Brain Stimulation has advanced rapidly over the last three decades—from an esoteric intervention in a few selected centers to a widespread clinical approach used to treat a multitude of neurological, psychiatric, and behavioral conditions. Development of new indications and refinement of technical nuances necessitate regular update on this modality for the worldwide readership. We encourage studies from all fields to contribute to this Special Issue in order to promote knowledge Deep Brain Stimulation.

Pittsburgh, PA 15260, USA

## Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Brain Sciences* (ISSN 2076-3425). *Brain Sciences* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on neuroscience. The scientific community and the general public can access the content free of charge as soon as it is published.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** Indexed in the Science Citation Index Expanded (SCIE - Web of Science), Scopus and other databases. Citations available in PubMed, full-text archived in PubMed Central.

**CiteScore** (2018 Scopus data): **2.85**, which equals rank 47/111 (Q2) in 'General Neuroscience'.
