submissions:

closed (25 October 2023)

Message from the Guest Editor

A multimodal approach is crucial for the effective treatment of epilepsy and brain tumor surgery. In the clinical situation, we need to integrate the information acquired by multimodal imaging techniques to make the best clinical judgement.

In this Special Issue of *Brain Sciences*, I would like to collect and share information about neuroimaging of epilepsy and brain tumor surgery, especially new insights obtained from clinical experiences.

For this Special Issue, we welcome submissions of original research, case series as well as interesting case report regarding epilepsy and brain tumor surgery.

an Open Access Journal by MDPI

Pittsburgh, PA 15260, USA

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Brain Sciences* (ISSN 2076-3425). *Brain Sciences* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on neuroscience. The scientific community and the general public can access the content free of charge as soon as it is published.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PSYINDEX, CAPlus / SciFinder, and other databases.

Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.6 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2023).
