### Message from the Guest Editor

Dear Colleagues,

Mild cognitive impairment is increasingly acknowledged as a risk factor for progression to dementia and, as such, has potential prognostic value. This Special Issue of *Brain Sciences* will discuss current methods (measurement, criteria) for the identification of mild cognitive impairment, and will examine potential risk factors for mild cognitive impairment. We welcome articles reviewing the identification and classification of mild cognitive impairment, describing new human and animal data, and emerging therapeutic interventions for the management of mild cognitive impairment. We hope we can count on your valuable contribution to make this a successful and impactful Special Issue for the journal.

Assoc. Prof. Andrea Loftus  
*Guest Editor*

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Brain Sciences* (ISSN 2076-3425). *Brain Sciences* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on neuroscience. The scientific community and the general public can access the content free of charge as soon as it is published.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** Indexed in the Science Citation Index Expanded (SCIE - Web of Science), Scopus and other databases. Citations available in PubMed, full-text archived in PubMed Central.

**CiteScore** (2018 Scopus data): **2.85**, which equals rank 47/111 (Q2) in 'General Neuroscience'.
