

Special Issue

Effects of Stress, Exercise and Diet on Neuroplasticity and Development across the Lifespan

Message from the Guest Editors

This Special Issue of *Brain Sciences* invites manuscript submissions related to “Effects of Stress, Exercise, and Diet on Neuroplasticity and Development Across the Lifespan” and the associated keywords provided. We encourage submissions spanning basic science, survey studies, and all phases of intervention trials; we are also open to both original research and literature reviews. Of note, we are considering “stress” to be inclusive of both perceived stress (e.g., patient-reported outcomes) and physiological stress (e.g., homeostatic disruption and neural circuitry activation). We are particularly interested in reports that examine key development periods, such as perinatal, childhood/adolescence, young adulthood, and geriatric age, as well as investigations with applications for chronic-disease populations.

Guest Editors

Dr. Sarah Ellen Braun

Department of Neurology, School of Medicine, Virginia Commonwealth University, Richmond, VA, USA

Dr. Autumn Lanoye

Massey Cancer Center, Virginia Commonwealth University, Richmond, VA, USA

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Brain Sciences* (ISSN 2076-3425). *Brain Sciences* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on neuroscience. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Stephen D. Meriney

Department of Neuroscience, University of Pittsburgh, Pittsburgh, PA
15260, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PSYINDEX, PsycInfo, CAPlus / SciFinder, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.6 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2025).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
