

## Special Issue

# The Neuroscience of Decision-Making: Linking the Brain, Behavior, and Society

### Message from the Guest Editors

This Special Issue aims to examine decision-making across a range of contexts, including everyday choices, moral dilemmas, and adaptive behaviors, encouraging studies using behavioral experiments, neuroimaging, computational modeling, and clinical approaches.

Submissions may address, but are not limited to:

- The role of neural circuits in integrating cognition, emotion, and social cues during decision-making;
  - How developmental, environmental, and psychopathological factors influence decision-making processes;
  - Applications of decision-making research in clinical contexts, including early detection and intervention strategies;
  - Advances in computational or experimental methods for studying decision-making in human or animal models;
- The interplay between social cognition, morality, and society.

This Special Issue aims to provide a comprehensive forum for theoretical, experimental, and clinical research that deepens our understanding of decision-making processes and their relevance to human behavior, mental health, and society.

### Guest Editors

Dr. Bruno Kluwe-Schiavon

Department of Psychiatry and Behavioral Sciences, University of Texas Health Science Center at Houston, Houston, TX 77054, USA

Dr. Giorgio Manenti

Institute of Systems Neuroscience, University Medical Center Hamburg-Eppendorf, 20246 Hamburg, Germany

### Deadline for manuscript submissions

30 November 2025

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Brain Sciences* (ISSN 2076-3425). *Brain Sciences* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on neuroscience. The scientific community and the general public can access the content free of charge as soon as it is published.

---

### Editor-in-Chief

Prof. Dr. Stephen D. Meriney

Department of Neuroscience, University of Pittsburgh, Pittsburgh, PA  
15260, USA

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PSYINDEX, PsycInfo, CAPlus / SciFinder, and other databases.

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.2 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).

#### Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
