

Special Issue

Emerging Topics in Brain-Computer Interface

Message from the Guest Editor

This Special Issue of *Brain Sciences* aims to present a collection of studies detailing the most recent advancements in the field of brain-computer Interface (BCI) research. Authors are invited to submit cutting-edge research and reviews that address a broad range of emerging topics in BCI, including BCI applications, methodological advancements (hardware, software, type of control), BCI control signals induction, recording and processing, feature extraction, classification, improvement of control accuracy, improvements in speed and/or number of commands (bitrate), hybrid systems, online control, and real clinical or end-user applications. **Keywords**

- brain-computer interface (BCI)
- BCI applications
- BCI control signals
- online BCI control
- closed-loop neurotechnology
- feature extraction
- machine learning
- classification

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Brain Sciences* (ISSN 2076-3425). *Brain Sciences* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on neuroscience. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Stephen D. Meriney

Department of Neuroscience, University of Pittsburgh, Pittsburgh, PA
15260, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PSYINDEX, PsycInfo, CAPlus / SciFinder, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.2 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
