Special Issue

Insights in Endoscopic Neurosurgery

Message from the Guest Editor

New approaches to the skull base are constantly being developed with a focus on minimally invasive approaches. Endoscopy allowed the dissection of anterior and middle skull base lesion without a single skin incision. However, the path of the skull base surgeon begins with a thorough knowledge of neuroanatomy. We invite authors to submit their original papers about neurosurgery and neuroanatomy to *Brain Sciences* (IF:3.3, SCIE, and Q2). This Special Issue will highlight descriptive neurosurgical anatomy (endoscopic skull base approaches, skull base lesions, vascular neurosurgery), human neuroscientific molecular anatomy, minimally invasive surgical techniques, neuroimaging studies (MRI, DSA, DTI, etc.), neuropathology, intraoperative visualization technologies, functional neurosurgical procedures (deep brain stimulation, focused ultrasound, etc.), human clinical research studies, and literature reviews.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Brain Sciences* (ISSN 2076-3425). *Brain Sciences* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on neuroscience. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Stephen D. Meriney
Department of Neuroscience, University of Pittsburgh, Pittsburgh, PA 15260, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PSYNDEX, PsycInfo, CAPlus / SciFinder, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.2 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
