

Special Issue

Advanced Neuromodulation Therapies for Chronic Pain and Psychiatric Disorders

Message from the Guest Editors

- This Special Issue will gather original research, clinical trials, and comprehensive reviews exploring the mechanisms, efficacy, optimization, and clinical applications of advanced neuromodulation therapies. We particularly welcome studies investigating personalized stimulation protocols, functional connectivity-based targeting, neuroplasticity biomarkers, and neurophysiological outcomes.
- Contributions focusing on translational approaches, novel stimulation paradigms, or integrative therapies (e.g., combining neuromodulation with psychotherapy, pharmacology, or neuroimaging) are strongly encouraged.
- This Special Issue will provide an updated, evidence-based perspective that supports clinical decision-making and stimulates the future development of safe, effective, and individualized neuromodulation treatments for populations with chronic pain and psychiatric disorders.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Brain Sciences* (ISSN 2076-3425). *Brain Sciences* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on neuroscience. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Stephen D. Meriney

Department of Neuroscience, University of Pittsburgh, Pittsburgh, PA 15260, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PSYINDEX, PsycInfo, CAPlus / SciFinder, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.6 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2025).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
