

Special Issue

Emerging Trends and Perspectives in the Neuroscience of Pain

Message from the Guest Editors

This Special Issue welcomes original research, comprehensive reviews, and concise communications that address three core themes:

- Neuroimaging and neurophysiology breakthroughs—including fMRI, PET, and EEG—that map anatomical and functional substrates of pain;
- Neuromodulation advances—including studies of spinal, peripheral, and transcranial stimulation techniques and pulsed radiofrequency—aiming to modulate aberrant pain signalling;
- Foundational mechanisms—exploring synaptic plasticity, neural circuitry, and psychological and genetic contributors to persistent pain.

Together, these perspectives aim to deliver a richer mechanistic understanding and accelerate the development of safer, precise, mechanism-based diagnostics and treatments for chronic pain conditions.

Guest Editors

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Brain Sciences* (ISSN 2076-3425). *Brain Sciences* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on neuroscience. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Stephen D. Meriney

Department of Neuroscience, University of Pittsburgh, Pittsburgh, PA
15260, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PSYINDEX, PsycInfo, CAPlus / SciFinder, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.2 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
