

Special Issue

Advances in Tinnitus and Hearing Disorders

Message from the Guest Editors

The diagnosis and therapy of tinnitus and hearing disorders such as hyperacusis and misophonia are complex because their underlying pathophysiological mechanisms are not well established. In the last decades, clinical and biochemical markers (including imaging techniques and genetics) as well as teleaudiology have emerged as promising tools for hearing disorders. The current Special Issue of *Brain Sciences* aims to present the latest research on the clinical findings for adult and pediatric tinnitus and hearing disorders. Relevant cutting-edge research includes optical coherence tomography and teleaudiology. Authors are invited to submit relevant original research and review papers.

Guest Editors

Dr. Alessandra Fioretti

Tinnitus Center, European Hospital, 00149 Rome, Italy

Dr. Aldo Messina

Past Head of the Audiology Unit, Policlinico Universitario, Palermo, Italy

Dr. Francesco Ciodaro

Unit of Otorhinolaryngology, Department of Adult and Development Age Human Pathology "Gaetano Barresi", University of Messina, Via Consolare Valeria 1, Messina, Italy

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Brain Sciences* (ISSN 2076-3425). *Brain Sciences* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on neuroscience. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Stephen D. Meriney

Department of Neuroscience, University of Pittsburgh, Pittsburgh, PA
15260, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PSYINDEX, PsycInfo, CAPlus / SciFinder, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.2 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
